*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

NEW SHIPS NOT NAMED.

The Characters used for Classification are:

100A1 95A1 / 90A1 85A1 / 80A1 75A1 — Vessels built of Iron or Steel according to the Rules in force since 1869.

A1 — Iron or Steel vessels built for a special purpose.

*⚓ — Iron vessels built with thicker plating than required for ⚓

⚓ ⚓ ⚓ — Iron Vessels built according to Rules in force between 1864 & 1871.

A1 A1 Æ1 — Wood or Composite Vessels.

The figure 1 affixed to a character signifies that the vessel is well and sufficiently equipped; a line after the character (thus, A—) that the equipment is deficient from that required by the Rules.

The words "*with freeboard*" under the character signify that the freeboard assigned is a condition of the vessel's class.

Classification of the late Underwriters' Registry.

A1* A1* Iron or Steel Vessels built in excess of Rules of Underwriters' Registry, and of extra quality of Iron.

A1* A1* A1 A1 A A Characters of Iron, Steel, or Composite Vessels built according to the Rules of Underwriters' Registry.

Vessels classed in Red were built under inspection of Surveyors to Underwriters' Registry.

The Classification Cols. when left blank indicate Vessels never classed by the Society.

In Col. 8 (Sailing Vessels), Col. 7 (Steamers) three dots ... indicate that the vessel had a Class at one time, but it has been withdrawn at Owner's request.

In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters *a*, *b*, *c*, &c., indicate the letters and equipment numbers in Tables Nos. 30 and 31 (Rules).

A black line with date under it, in Classification Col. (thus, 3,12), indicates that vessel's character was expunged from Register Book at date specified because, from reported defects, the vessel was not entitled to retain her classification; a red line with date (thus, 3,12), indicates withdrawal of class because of non-compliance with Society's Rules.

A date in Classification Column, without character, indicates that the class has expired, or been withdrawn from absence of Survey, or non-payment of fees.

When a posting of loss, casualty, &c., is made against a classed vessel, the character is expunged thus:— ~~100A1~~

✠ in the Classification Column signifies that the vessel was built under Special Survey.

LMC—Boilers and Machinery certified by the Engineer Surveyors to Lloyd's Register.

B&MS—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer Surveyors to Lloyd's Register.

DBS—Donkey Boiler Surveyed and reported to be satisfactory by the Engineer Surveyors to Lloyd's Register.

✠ Special Survey of Machinery or Boilers during construction.

Lloyd'sRMC—Refrigerating Machinery Certificate denoting that the Refrigerating machinery, insulation, and spare gear are fitted in accordance with the Rules, and were found in good condition by the Surveyors to Lloyd's Register at the time mentioned.

✠Lloyd'sRMC—The ✠ signifies the Special Survey of the Refrigerating appliances during construction, by the Surveyors to Lloyd's Register.

A&CP.—Anchors and Chains Proved at a Machine recognised by Lloyd's Register.

Lloyd'sA&CP.—Anchors and Chains proved at a Public Machine under the superintendence of Lloyd's Register.

SS & *ss.*—Special Survey. Rest.—Restored.

Cont.—Continued. HT.—Half-Time Survey

Key to Abbreviations.

Asp .....Asphalted.
B 30′ .....Bridge Deck 30 feet long.
BH .....Bulkheads.
BK 9″.....Bar Keel, 9 inches in depth.
C .....Coppered.
CB .....Copper Bolts instead of Treenails, per Section 46 (Rules for Wood Vessels).
cf, CF, and CF—Copper fastened.
CellDB .....Cellular Double Bottom.
Cem .....Cemented.
DB .....Double Bottom.
2 Dks (Iron—*Uws*) 2 Iron Decks, the upper one being sheathed with wood.
2 or 3 Dks ...Two or three Decks laid.
DT .....Deep Tank.
Elec. light.....Lighted by Electricity.
F 30t .....Forecastle 30 tons.
F&YM .....Felt & Yellow Metalled.
FK .....Flat Keel.
GIB.....Galvanized Iron Bolts.
H .....Deck Houses.
IB.....Iron Bolts.
Irp .....Large repairs.
Mat.....Materials.
ND .....New Deck.
NDS..... New Deck Sheathing.
NKl .....New Keel.
NKlsn .....New Keelson.
NTsds .....New Top-sides.
NW .....New Wales.
P 30t .....Poop 30 tons.
PBH .....Partial Bulkheads.
Q 30′ .....Raised quarter deck or break 30 feet long.
retrld .....Retreenailed.
RFD 30′ .....Raised fore deck 30 feet long.
srp .....Some repairs.
2 or 3trB .....Two or three tiers of Beams with or without Decks on them.
WB.....Water Ballast.
WS.....Wales Sheathed.
Z .....Zinc.

Machinery.

C. ...Compound.
T. ...Triple expansion.
Q. ...Quadruple expansion
H. ...Horizontal.
O. ...Oscillating.
D. ...Diagonal.
L. ...Lever.
2 SB 2 Single ended Boilers.
2 DB 2 Double ended Boilers.
FD ...Forced Draught or Induced Draught

6 cf .....6 Corrugated Furnaces.
6 pf .....6 Plain Furnaces.
6 rf .....6 Ribbed Furnaces.
GS 109 109 square feet of Grate Surface.
HS 3006 3006 square feet of Heating Surface.
4 S.C. 4-stroke cycle } Oil and Gas Engines
2 S.C. 2-stroke cycle } Oil and Gas Engines
SA Single acting } Oil and Gas Engines
DA Double acting } Oil and Gas Engines

100 lb .....Working Pressure of Main Boiler in lb per square inch.
65 lb .....Working Pressure of Donkey Boiler in lb per square inch. The letter P or S prefixed to *lb* indicates the pressure of port or starboard boiler respectively.
Mchy. Aft. .....Machinery fitted Aft.
Ref. Mchy. .....Fitted with Refrigerating Machinery *see* List at end of Register.
NHP .....Nominal Horse Power by formulæ given on page xxvii of Key.
RHP .....Nominal Horse Power by Official Register in the case of British Vessels.
NE&B .....New Engines and Boilers.
NDB .....New Donkey Boiler.
In Col. 13 letters *a* to *t* in parenthesis indicate the Material of Boilers (*see* Key, page xxviii.)

In Col. 16 (Sailing Vessels), Col. 15 (Steamers), the Capital letters represent the Register Societies in which Vessels are classed, if not classed in Lloyd's Register. "BT till 6,13" indicates that a Board of Trade Passenger Certificate has been granted, expiring in June, 1913.

For complete explanation of Records, &c., *see* Key at commencement of Register, page xxv.
